ABOUT US

WHO WE ARE

Hallmark is a professional construction, development and property management company which provides a comprehensive suite of services to both the public and private sectors. Hallmark builds quality homes in new developments and also provides a complete project management service. We have experience in managing small scale domestic projects to large multi-million construction projects.

We advise on planning, land acquisition and site suitability. We also offer development assessments and reports for financial institutions as well as offering funding advice. Our full range of services helps to guide clients through the whole development process to transform each initial design into reality.

WHY HALLMARK?

Hallmark Building Services is driven by our mix of practical and professional expertise which includes project managers, building surveyors, engineers and architects. Their presence and complementary skills empower us to make informed decisions and respond to market demands fast and effectively. The short lines of communication also support our excellent customer and professional relationships. Hallmark is highly experienced in projects that demand a short turnaround time, quick design and planning and a hands-on approach. Our knowledge of planning and development as well as our stringent control of design and construction means customers receive the quality they expect and deserve. We continually review performance on every project to ensure continuous improvement across our business. We encourage clients to give us feedback

We focus on building sustainable family home developments at affordable prices. Our strategy is to ensure we develop communities that serve our customer requirements in high quality, well serviced locations.

We recognise that the integrity and reputation of our business rests not only on us delivering quality homes and business environments but also on our ability to understand people's ever-changing needs and desires. It is our belief that this will lead to a better outcome for our business, our community and ultimately our customers.

Construction is all about people's performance and our people are skilled, highly trained and have the relevant experience to deliver the most complex and challenging projects within demanding project deadlines and meticulous quality standards.

on topics as diverse as value engineering and design, workforce competence and health, safety and environmental results.

Using a combination of internal and retained external specialists with expertise and an understanding of specific customer needs, Hallmark strives to find solutions that offer greater utilisation, faster delivery and lower lifecycle costs.

Hallmark project managers have the ability to adapt to all manner of project situations and can ensure the project runs smoothly from concept to completion. Our business is respected for its professionalism, quality standards and customer care.

We have the proven track record and experience to undertake any new build project. Our portfolio includes a wide range of projects – including small to large scale residential projects, office blocks, leisure complexes and educational/healthcare centres. What they all have in common is a high standard of delivery and a commitment from our team to meeting each client's brief to time and budget.

Property Advisors

HOW WE DO IT

Our Approach

At Hallmark, we specialise in building design-led homes to complement today's modern lifestyle. The future is now. Our well-respected team and established reputation forms a solid foundation for this exciting new era of property development.

We don't strive to meet your expectations, we exceed them. Your needs are at the heart of each home. We analyse these requirements and build well-thought out solutions, delivering stylish homes with exceptional quality, comfort and convenience - all in outstanding locations.

Design & Planning

Honesty and open lines of communication are essential when implementing the planning process of a new development. At Hallmark, we have nurtured trusted relationships with both local authorities and stakeholders for years. These mutually beneficial alliances allow us to deliver efficient and consistent results, time and time again.

We are extremely passionate about pushing the boundaries of design, basing our world-class developments on one simple ethos; good design makes life easier and more enjoyable for people. When it comes to designing your dream home, only the best will do at Hallmark. That is why we choose to work with some of the country's top architects and source the highest quality materials available. The constraints of an individual project are marred beautifully with its endless possibilities, allowing you to create your own story.

Our Sites

It's all about location, location, location for us at Hallmark. Well-connected sites in areas set to benefit from substantial upgrades to infrastructure and public amenities are crucial to our ultimate vision of people-led communities.

Through years of experience, we have honed our skills and depth of industry understanding. This knowledge enables us to source prime sites at sensible prices. Our access to funding allows us to make fast, astute decisions about land purchases, resulting in responsible investments with a substantial return on capital.

Sales & Marketing

Building a home is more than mere bricks and mortar. We believe the people behind the walls and their stories are what matter. From first-time renters to long-term owners, we are dedicated to creating contemporary homes that will improve quality of life, creating a haven where treasured memories will last a lifetime.

We understand that purchasing a new property can be equally daunting and challenging. Choosing where to live or deciding how to invest your money is a life-altering responsibility.

At Hallmark, we pride ourselves on initiating honest conversations with our clients from the outset to help you make the most informed decision for you and your current lifestyle needs. We promise there will be no pressure or unnecessary sales jargon. Our team is on hand throughout your buyer journey to offer guidance and expert advice.

Funding & Finance

Our current investors include a select pool of results-driven, long-standing associates and financial partnerships. Together with ready access to funding, our incisive financial decision-making yields compelling returns on capital.

A testament to our commitment and unwavering belief in each development, we also back our own projects with our own finance. We know that by consistently meeting our clients' desires, we will secure substantial returns.

Build Management

Our superior engineering knowledge and technological experience in constructing landmark developments cannot be beaten. Unlike other developers in the industry, the team at Hallmark is different in that we use a hands-on approach to add a personal touch to each project.

To deliver the highest level of standards whilst adhering to strict timeframes and allocated budgets, each stage is personally managed at director level. We believe this approach is instrumental in unleashing each development's full potential.

From architectural consultants, right through to highly-skilled contractors, each supplier is carefully selected in order to fully conform with health and safety regulations in the building sector.

COMPANY
POLICIES

Health & Safety Policy

Hallmark is aware of its responsibilities, under the Safety, Health and Welfare at Work Act, 2005, to provide as safe a place of work as is reasonably practicable. We recognise that the primary responsibility for providing and maintaining safe working conditions bears on Management and we will endeavour to do everything that is reasonably practical to comply with this responsibility. The achievement of a safe and healthy working environment requires the commitment and co-operation of all employees and others affected by our work.

Quality Management Policy

Hallmark's goal is to supply construction services of consistent quality that conform fully with company and statutory requirements. We maintain an effective Quality Management System (QMS) which applies to all our activities at all times. We are committed to the QMS and its continual improvement, and we insist that all staff and sub-contractors comply with it. The Directors further demonstrate their commitment to the improvement of the management system by holding management meetings to review all operational aspects of the business.

Corporate Social Policy

As a young and dynamic team of professional engineers and project managers, we passionately advocate sustainable development that benefits our communities and natural habitats. We recognise that we have a responsibility to carry out our activities in line with sustainability best practice and we place major emphasis on engagement with communities and seek to minimise our impact on the environment. We believe in creating supply chains that use local people and materials wherever possible, so communities affected or benefiting from projects are engaged in the entire process. Our commitment to sustainable construction is implemented through our Sustainability Policy and our Safety, Quality and Environmental Management Systems.

Environmental Management Policy

Hallmark recognise that construction operations may have a damaging impact upon the environment and therefore ensure that all construction activities are carried out in such a manner as to ensure a high standard of environmental protection and awareness. We aim is to minimise adverse environmental effects arising from our business activities and promote a positive attitude to the conservation and enhancement of all aspects of our environment. We are establishing an Environmental Management System (EMS) which will comply with the international standard ISO 14001. The EMS includes systems to assess the environmental impact of our operations and the provisions of appropriate levels of training and information to support our environmental aims and objectives.

*CLIENTS &
PARTNERS*

Over the past number of years we have worked closely with both private and public clients. Our Clients and Partners include the following:

Private Individuals
Property Developers & Investors
Banks, Financial Institutions & Receivers
Local Authorities
Architects & Consulting Engineers
Legal Firms
Government Departments
Various Contractors

Our clients are our number one priority. Hallmark is a highly effective and efficient company that is focused on meeting client objectives. We provide our clients with the highest quality workmanship, great attention to detail and above all professionalism. Through our experienced staff and vast knowledge we aim to successfully and consistently deliver on each project we are engaged in.

At Hallmark, we work closely with our business partners such as Architects, Consulting Engineers, Sales Agents etc. We have developed long-term relationships with them and have achieved mutual growth based on mutual trust. Hallmark chooses business partners based on their knowledge of the industry, quality of work and performance.
